love
reading

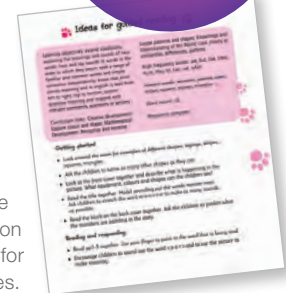

Encourage
reading
for pleasure with
1200+
unputdownable
books!

Stimulating text, engaging illustrations & photography provide discussion points and help develop speaking and listening skills.

A variety of text types from top authors like poetry from Children's Laureate Michael Rosen, ensures students read with enjoyment and motivation.

Step-by-step guide to using the book in a guided reading session provides you with lots of ideas for discussion 'points' and activities.

Get reluctant readers hooked on books! Discover awesome adventures, fascinating facts and gripping graphic novels!

This action-packed series is stuffed with dynamic illustrations, humour and great story-telling – all of which adds up to a truly fun and motivating way to grab the attention of every student.

Featuring a highly engaging mix of fiction and graphic novels as well as non-fiction, the world of **Shinoy and the Chaos Crew** reflects comics, gaming and fantasy, perfect for fostering a love of reading in your whole class.

MEET SHINOY AND THE CHAOS CREW

Have you ever wondered what would happen if your favourite TV characters came to life?

Shinoy is an average ten-year-old kid whose gaming app has a unique upgrade – a button that makes his TV heroes come to life!

In every story Shinoy is faced with a mystery in his own world – such as when gravity becomes too strong or rain starts falling upwards – but he can quickly use his app to call up a member of the Chaos Crew and together solve the problem.

HOOKED ON
BOOKS!

Why do readers respond to Shinoy and the Chaos Crew?

- All the books feature illustrations, themes and characters which reflect children's worlds and interests as well as sparking their imagination
- Children build a sense of achievement as they complete each book, motivating them to pick up the next book in the series
- The range of book types included encourage reading for pleasure with humorous fiction, non-fiction and graphic novels.

What if gravity got turned off? Can robots think? Is time travel possible?

Explore these topics and more with your students with 12 **non-fiction** books based on the exciting adventures of **Shinoy and the Chaos Crew**. Each book is linked to a theme explored in the fiction stories to provide more reading opportunities around topics that have captured children's imagination.

Join Shinoy and the Chaos Crew on a MISSION to save the day!

12 thrilling adventures presented as **graphic novels** to hook in even the most reluctant reader. The ratio of text to illustration supports readers as it's less intimidating and the graphics aid understanding, increasing children's confidence. The humour and the grounding of the stories in the real-world also appeal to young readers.

ENGAGE YOUR STUDENTS IN THEIR LITERACY LEARNING!

Engage Literacy – Guided Reading Resource.

Engage Literacy is an award-winning program perfect for **guided, independent and shared reading**. The precisely levelled books, comprehensive teacher support and comprehension resources cover a huge variety of topics and provide an exciting fun program to engage even the most reluctant of readers.

What makes Engage Literacy Special?

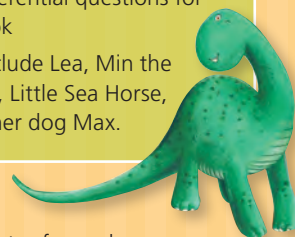

All 412 texts, both fiction and non-fiction, have been developed using carefully graded vocabulary lists, e.g. the word 'go' is introduced at Level 1 and 'going' is introduced at Level 4. Therefore, children build up a bank of high-frequency words, providing them with a smoother transition as they are introduced to higher-level texts. The texts enable children to build on their prior knowledge and make new connections based on these previous understandings.

Engage Literacy also includes a progressive academic vocabulary list of words, such as 'draw', 'make', & 'write', which are essential for early readers to successfully understand and complete academic tasks independently. **Engage Literacy** ensures that children are exposed to texts that match their developmental reading level, enabling greater potential for reading success & enhancing fluency.

The earlier levelled texts have a ratio of introduced words to known words of 1:20.

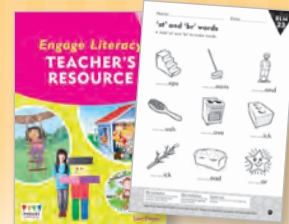

Program components:

- 412 Precisely levelled books
- Thematically linked fiction and non-fiction pairs
- Guided Reading Levels A-V, Early Intervention Levels 1-30, Reading Recovery Levels 1-20+
- Comprehensive teacher support
- Text-dependent and inferential questions for every page in every book
- Recurring characters include Lea, Min the Monkey, Baby Dinosaur, Little Sea Horse, Mr. Lee, and Kate and her dog Max.

Teacher's Resources.

- Downloadable teaching notes for each title provide whole and small group instruction, ELL engagement, and assessment tools
- Blackline Masters and running records for each title
- Photocopiable activity worksheets are also included.

It's good to have a light
if you want to go inside this cave.

A cave can be very dark.
No light can get inside this cave.

"Hello," said Grumpy Old Bear.
"While bears, you are shouting!
Are you all having fun?"
"Yes!" shouted all the friends.

Icebergs are bigger than they look.
You only see the top of an iceberg
when you look at it.
The top is above water.

The bottom of the iceberg
is eleven bigger.
The bottom is under the water.

Top (above the water)

Bottom (under the water)

Elephants have a very long trunk.
An elephant can get food with its trunk.
It can get logs with its trunk too.

Water is very good for you.
You need to drink lots of water.
The water we drink
comes from this rain.

WONDER WORDS – teaching children their first 100 sight words through stories.

Wonder Words ensures success and confidence for early readers.

It contains 23 highly visual and engaging stories – incorporating repetition, rhyme and rhythm – that introduce children to their first 100 sight words in an enjoyable and friendly way.

Designed for:

- Children in their first year of school
- Intervention children in their second year of school
- English as a Second Language/ English Language Learners.

How the Wonder Words stories work:

- Each of the 23 Wonder Words stories is carefully levelled and can be used seamlessly with the Engage Literacy titles
- Each story introduces 3-6 new Wonder Words in a real context and each successive story has a new Wonder Words list
- There are 23 Wonder Words lists (one list for each story)
- Designed to be introduced in sequence, the stories teach children their first 100 sight words progressively; as new words are introduced in one story, they are reinforced and repeated in later stories.

<p>Q1: Look at the cover and read the title. What is the boy doing?</p> <p>A1: The boy is thinking he is looking at the things on the table. He is looking at the rock, the sponge, the crayon, the boat, and the apple.</p> <p>Q2: What do you think the boy is going to do?</p> <p>A2: I think the boy is going to do a science experiment. He is going to see what will sink and what will float in water.</p>	<p>Q1: What things floated in the fish tank? What things sank?</p> <p>A1: Little plants, fish food, and the teacher's pencil floated in the fish tank. Seashells and stones sank.</p> <p>Q2: After children did their experiments, what did they find out?</p> <p>A2: The children found out that the boy, crayon, coin, and the eraser sink. They found out that the apple, block, sponge, ball, and boat floated.</p>	<p>Q1: What did the children do like real scientists?</p> <p>A1: The children made predictions first about what things would sink and what would float. They put their predictions on a chart. Then they put all the things in the water and saw what happened.</p> <p>Q2: How did the children show their results?</p> <p>A2: The children showed their results on another chart.</p>

What Sinks? What Floats?				
RELATED ACTIVITY				
Let's See if It Sinks				
Set up a center for sink and float activities. Provide a transparent plastic container partially filled with water. Place an assortment of objects next to the container. Encourage children to predict which items will sink and which will float. Have children sort the items according to the predictions and then test their assumptions. Invite them to explore whether some items that sink can be made to float and vice versa. For instance, students can experiment with a ball of clay to discover whether it can be made to float by changing its shape.

Chapter 2: The Forest

She climbed down to the forest floor and let Tess and Asha through the trees. They walked in silence, hearing only the crack of twigs under their feet and birds singing. Then Asha heard a new sound.

"What's that noise?" she asked, glancing about.

"That's what I wanted to show you," whispered Shi.

They moved forward to a gap in the trees, and Tess and Asha gasped. Ahead of them was a large area of earth, dotted with jagged tree stumps and in the distance a track loaded with logs was trundling away.

"People have been cutting down the forest," sighed Shi.

STREET DANCING

One of the most popular street dances is known as breakdancing. The dancers flexes and holds poses in the specific moves and sets them up in any order they like. The dance is fast, sharp and full of surprises.

- Some of the moves include:
- **spin** (step in front of hand stand, putting one hand down after the other)
 - **freeze** (suddenly still, often when balancing on hands or shoulders)
 - **power** (tripping the upper body while moving backwards or forwards)
 - **muscleback** (moving backwards in a way that makes it look as though you are moving forwards).

Learn how to worm

1. Find a soft floor, such as a carpet.
2. Lie down on your front.
3. Lift yourself up with your arms.
4. Rock backwards and forwards, lowering your arms and lifting your legs.
5. As you rock back and forth, lift your legs up and out, then back in to the floor again.
6. Repeat.

Macmillan – Talk About Texts

Early – Middle Years • Levelled • Years F/K-3 [Y]-4]

Talk About Texts – a talk and vocabulary-focused approach for rich guided reading.

With its unique talk approach, **Talk About Texts** integrates the teaching of reading, vocabulary and oral language skills into one rich and effective program which will help you to save time & achieve more.

The **Talk About Texts** resources seamlessly integrate a number of oral language instructional strategies to teach the four elements of talk through your guided reading sessions: listening and responding, building vocabulary, having fluent conversations and questioning.

Both Vocabulary for Reading and Vocabulary for Talking are robustly taught and practised throughout the guided reading sessions using a variety of strategies, focused questions, answer frameworks & flashcards.

**CAREFULLY

160 GREAT STUDENT BOOKS

Student Books

Each Student Book is finely levelled to systematically build students' reading skills and confidence.

Student Books include:

- Full coverage of text types, enabling students to build robust comprehension skills across a broad range of texts
- Links to other learning areas of the Curriculum, including Science, Humanities and Social Sciences, and The Arts, allowing you to match texts to your teaching topics and students' interests
- Post-reading activities at the end of every book, providing opportunities for students to develop personal responses to the text by thinking, talking and writing.

and themes.

Teacher's Editions

Teacher's Editions accompany each of the 160 Student Books. From the outside, the Teacher's Edition looks just like the Student Book, allowing you to discreetly access your teaching notes whilst leading the guided reading group. The notes embed the oral language approach and vocabulary instruction throughout, providing everything you need for an effective guided reading session in one place.

Vocabulary for
Reading highlights
rich 'tier 2' vocabulary

High Frequency Word.

Before Reading activities activate students' prior knowledge and encourage prediction.

Vocabulary for Talking introduces focus academic sentences in full spoken responses used during the guided reading session.

Talk Strategies provide you with a toolkit to improve students' oral language skills & comprehension.

The **Vocabulary for Reading** on the inside front cover are highlighted as a visual prompt for discussion during reading.

'Talk' questions and sentence frames, focused on a specific comprehension strategy, stimulate rich conversation.

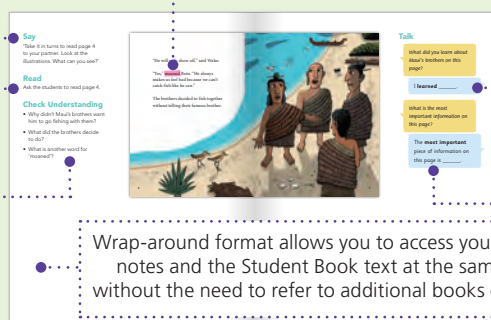

Answer frameworks support use of full sentences and Vocabulary for Talking in student responses.

'Say' prompts help you introduce the section and explain to students what they need to do.

'Read' prompts help you follow best practice, offering different types of reading experiences.

Focused **'Check Understanding'** questions provide opportunities during reading to check literal comprehension and understanding of the text, including vocabulary.

Wrap-around format allows you to access your teaching notes and the Student Book text at the same time, without the need to refer to additional books or papers.

From Joy Cowley

“Children need to find affirmation in a story. The story should empower children in several ways: helping them to see themselves as successful readers; helping them to feel good about their ability to make cognitive connections and to solve problems; helping them to see their own worthiness in the characters.”

Signatures is an exciting series of chapter books for Years 3–7 [Y4–8]. Joy Cowley has written 15 of the **Signatures** child-centred chapter books and selected and edited more from New Zealand and Australian authors.

Reading Alive

Reading Alive is a beautiful imprint from **Clean Slate Press** dedicated to high-quality picture books and other library and trade resources.

Joy Cowley Building Bridges

This series is a bridge to literacy for 8–12 year old readers who are reading at around an 8 year-old level. Each 32 page book, written by Joy Cowley, contains three short stories about the same characters. This series spans the gap for struggling readers between junior reading material and chapter books.

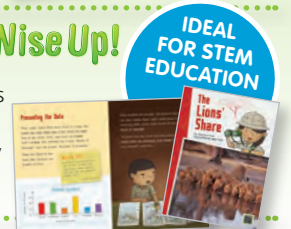

StoryWorld

An exciting literacy/social studies resource for Years 1 & 2 [Y2 & 3]. **StoryWorld** provides students and teachers with a collection of traditional tales and additional material centred around countries and cultures in a flipbook format.

Wise Up!

Wise Up! Takes an Inquiry Learning approach to teaching literacy & maths content in recognisable real-world contexts. Books all contain a glossary, answers to the **Wise Up!** questions, and a follow-on challenge activity.

Odd Books

A Classroom Library/Independent Reading series that takes a look at some of the world's most eccentric personalities and events. Features easy-to-read text, within a full colour, high design, magazine-style format. Each of the eight **ODD** books contains high-interest, quirky subject matter. This is the perfect series for reluctant readers and junior school extension.

Engage Literacy Comprehension

Early Years • Levelled • Levels 9-22

A precisely levelled resource that addresses the comprehension needs of individual children and/or small groups.

It ensures success and enjoyment and will build growing confidence by providing a carefully graduated level of content and complexity, while encouraging children to make use of their own knowledge and experience in making meaning from text.

Engaging, levelled fiction and non-fiction student Text Cards, all richly illustrated, model a range of text types and text forms.

Components of each Kit:

- 9 Comprehension Strategy Teaching Cards
- 1 Overview Teaching Card
- 252 Comprehension Text Cards
- 1 Comprehension Strategy Poster
- 1 Teacher's Resource
- 7 Answer Cards.

No Nonsense

Spelling

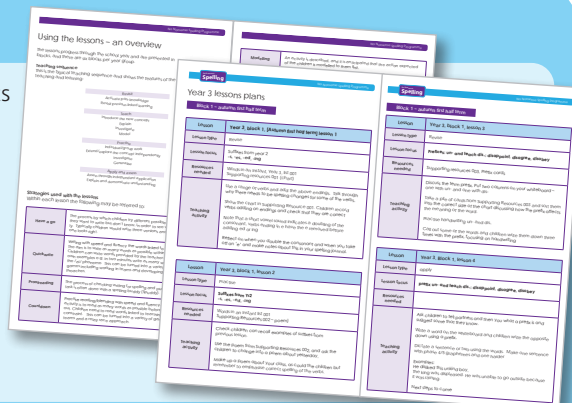

No Nonsense Spelling

Early – Middle Years • Years 2-6 [Y1-7]

A complete spelling program.

- Easy to use: designed to support the requirements of the Curriculum from Year 2 to 6 [Y3-7]
- Tried and tested by teachers: developed with teachers and tested in their classrooms
- Comprehensive: provides guidance rather than prescription on how to teach the strategies, knowledge and skills students need to learn.

A no-nonsense straightforward approach to spelling for Years 2-6 [Y3-7].

The program is broken down into termly overviews with individual lesson plans and resources.

“The fact that it’s easy to follow and quick to resource makes this scheme both useable and great value for money.”

Jayne – Literacy Subject Leader, Oasis Academy Henderson Avenue.

Centauri

Centauri – Reluctant Readers

Upper Years • Years 6-8+ [Y7-9+]

Centauri – a chilling thriller in six parts, developed for older, struggling readers.

Who is Centauri aimed at?

Centauri has been created for older struggling or reluctant readers aged 12 years plus, who read at age 7-8 years.

Why is Centauri different to other Hi-Lo fiction?

It is a challenging sophisticated story that has been expertly crafted to make it manageable for struggling readers.

Why 6 books?

We all know that feeling of finishing one episode in a box set and not being able to resist watching the next. The **Centauri** books capture that excitement for readers.

Hi Lo

My name is AliX.
I know this because it
is marked on my hand.
100 days ago, I woke
up in this house.
I do not know why
I am here.
All I know is that
someone is watching
me, and that my
body is dying.

FEEL BRAVE • Available separately or in packs

7 TITLES

The Wolf is Not Invited

Self-confidence

Wolfgang is left heartbroken when his best friend Catreen runs off without him to play with Clarrissa.

There are some situations and feelings that we cannot change and there are some that we can.

The Wolf and the Shadow Monster

Anxiety & Fears

Wolfgang is excited to have his friends over to stay for the whole night. They all have great fun until the lights go out and Wolfgang's secret fear of the dark is revealed.

Life can sometimes be scary but there are some great tricks out there to make scary things not so scary any more.

The Grand Wolf

Change, Loss and Grief

Wolfgang and his friends love to visit the Grand Wolf but one day they arrive to find she has gone and this makes them all feel very sad. Spider shows Wolfgang that just by seeing things a little differently he can feel happy again.

The more we talk about and embrace change, the better we get at it (whatever shape or size it comes in).

The Wolf and the Baby Dragon

Worries & Calming Down

When Wolfgang and his friends learn about a secret cave where a baby dragon is living they quickly run off to find it, but Wolfgang gets left behind. His bag is full of heavy worries that are making him slow and he just can't let go of them. Spider shows him how to rest his busy mind and worries aren't so bad if you share them.

The Wolf's Colourful Coat

Bullying & Kindness

Wolfgang can't wait for it to get cold enough for him to wear his brand new colourful coat but when the time finally arrives, some nasty creatures make fun of it. Wolfgang feels upset. Spider encourages Wolfgang to tell someone he trusts about how he is feeling and he learns that things aren't always as they seem. Sometimes we get hurt by others and we have to be brave enough to continue to be ourselves and to keep our hearts open.

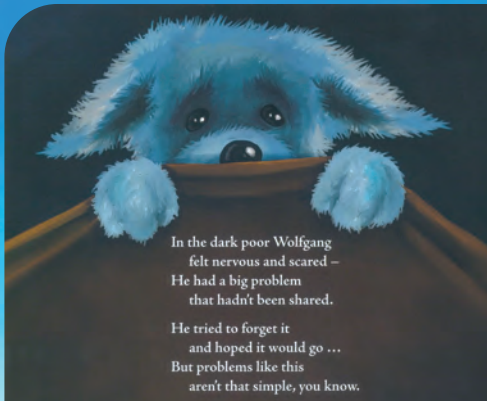

The Wolf Was Not Sleeping

Front line worker anxiety

Wolfgang's dad works as a helper: when the wolves sound the alarm, he has to leave to help the other creatures in the forest. Each night Wolfgang worries about what might happen if his dad gets the call. His worries are so bad that they keep him awake, and he is falling asleep in the daytime instead! Wolfgang learns that things aren't always as bad as they seem.

The Wolf and the Shadow Monster.

The Wolf Was Not Sleeping.

ILLUSTRATED.

The Purrfect Pawse

Stretching and Gratitude

This lovely book uses rhythm, rhyme and repetition to encourage children to take a pause, stretch out and unwind with Catreen the cat. Its beautiful verse brings to life pleasant imagery that connects them with the wonders of nature.

The gentle stretching activity is an ideal example of a “daily dose” of emotional well-being that children can learn and incorporate into their day.

The Author

Avril McDonald is the award winning best-selling author of the **Feel Brave** series of books which have been translated into six different languages and air on television and streaming apps around the world.

Avril's work is fully endorsed and recommended by leading clinical child psychologists and she is an ambassador of the Life Education Trust in New Zealand who use her books and strategies in all of their mobile classrooms. She is also an ambassador of the NZ Firefighters Welfare Society and an official patron of the Westminster Children's University in London.

FEEL BRAVE EMOTION CARDS

A pack of 48 cards (4 sets of 12 cards) to build emotional literacy by identifying and naming feelings, enabling children to process their feelings more effectively (when we can “name” a feeling, we can “tame a feeling”).

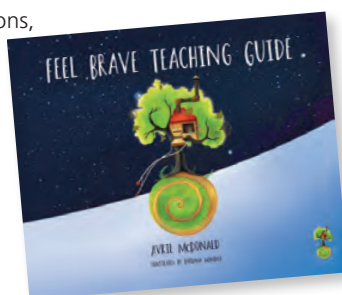

Each pack of cards comes in its own **Feel Brave** drawstring protective bag.

FEEL BRAVE TEACHING GUIDE

Activities include guided visualisations, physical exercises, drama games, mindfulness exercises, craft activities and card games.

The teaching guide includes the text from five books meaning they can be read aloud in class. The guide can also support video story telling sessions fit for classroom and assembly sessions that are freely available on the Feel Brave page in our Wellbeing Life Skills section of AU lioncrest.com.au NZ lioncrest.co.nz

LESSONS OF A LAC

Lessons of a LAC

Early – Upper Years • Years F/K-6 [Y1-7]

Give children a simplified helpful way to think about anxious chatter.

This anxiety management program gives children a simplified, helpful way to think about anxious chatter and to empower them with simple and fun ways to manage ANXIETY.

Anxiety is the most common psychological problem in children. Approximately 1 in 5 children suffer it. And EVERYONE worries.

Lessons of a LAC and the anxiety management framework built around it, are the result of the author, Lynn Jenkins, and illustrator, Kirrili Loneragan's passion for intervention when it comes to children and their wellbeing.

Author: Lynn Jenkins is an experienced and practicing clinical psychologist, author and mum of three. **Illustrator:** Kirrili Loneragan is children's book illustrator and mum of four with a passion for communicating visually.

PD OPPORTUNITY Lynn Jenkins & Kirrili Loneragan are available to run PD sessions at your school. See Page 127 for more details.

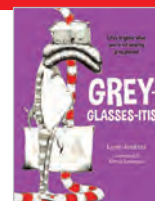

Through an in-depth study of **Lessons of a LAC**, children will develop an ability to look beyond the simple story within a text and develop their inferential comprehension skills. The text can be used as a model to guide creativity and writing, and focus on grammatical features to allow children an opportunity to engage as an audience and create text of their own. Children are also given the opportunity to delve into their emotions and build an understanding of anxiety and how this can be a 'danger' to their emotional state.

A resource tool, perfect for School Counsellors, Learning Support teachers, ESL, PDHPE, Special Needs and parents too!

AGES 4-12

Increases understanding about anxiety and empowers children to become aware of their particular anxious signs with the help of much-loved characters, Lopy and Curly. Children at an early age will be empowered with the right approach to dealing with anxiety at any age.

Brave

Have you ever needed to do something that made you nervous even thinking about doing? Kids do all the time. Going to bed, weathering through storms, going to school, speaking in class, making a new friend and so on. Children are expected to just get on with it! This book helps teach kids how to find their BRAVE.

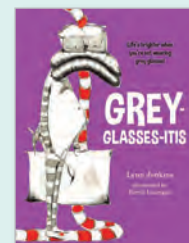

Perfect Petunias

Especially for those little people who find it hard to make mistakes, designed to 'shape' perfectionistic tendencies towards being a little more self-accepting and flexible. Gives children ways to think about and manage common emotional difficulties. A valuable resource for every child to help guide their emotional development.

Grey-glasses-itis

Help children to understand the link between how they see things and how they feel. Children will learn that a simple shift in perception can often give them some influence over their feelings, helping build their emotional resilience.

Tree

An ideal resource to help children learn how to say goodbye and process grief. One day Curly and Lopy notice that Tree's leaves are starting to fall – at the wrong time of year – and Tree's bark is flaking. It's Tree's time to leave.

Switched on Computing – everything you need to teach computing, including programming and computational thinking.

Switched on Computing offers creative units using the latest FREE software in a format that is designed for teachers of all levels of experience to pick up and use.

Coverage of the computing curriculum – not just coding!

Delivers clear progression of skills from Year 1 to Year 6 [Y2-7].

E-safety curriculum embedded in every unit.

Supports teachers of all levels of experience with software demos and detailed step-by-step planning.

How to use Switched on Computing.

1. Prepare

- The Teacher's Book provides everything you need to know before starting a unit
- Software in 60 seconds demos show you how to use software referenced in each unit
- Classroom posters display key vocabulary and concepts, to help students get the most from the unit
- E-safety road map and guidance within the units promote safe and responsible use of technology.

2. Get Started

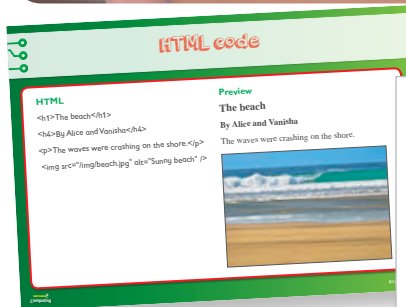

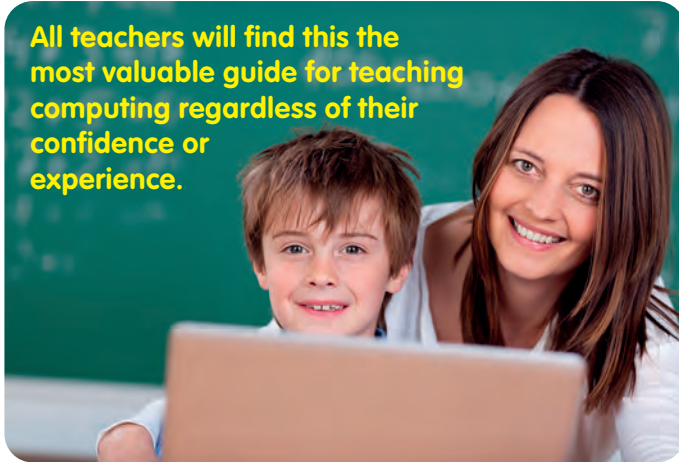

- Six pages of detailed step-by-step guidance is provided for running each task
- Extension ideas are provided for use with more-able students and for homework to promote home-school links
- Inclusion guidance provides suggestions to support and engage less-able and ESL children.

Curriculum aligned.

All links are free to download.

Sample from Unit 4.4 – We are HTML editors.

All teachers will find this the most valuable guide for teaching computing regardless of their confidence or experience.

3. Assess & progress

- Simple-to-follow assessment guidance shows you what all, most and some students should demonstrate or understand as they work through the task.
- The opportunity to use open badges or an editable progression record offers a flexible approach to assessing and tracking progress
- Classroom ideas show you how to bring the unit alive with suggestions for taking the project further.

MARTY THE ROBOT

Marty The Robot

Early – Upper Years • Years 1-12 [Y2-13]

Specifically designed to help develop STEM skills

Marty the Robot V2 – a walking, dancing, coding companion that costs little but does a lot!

Bringing Science, Technology, Engineering and Maths to life – and let's not forget arts and creativity too!

Marty is a real robot designed to help teach coding, electronics, and engineering to kids in a fun and engaging way, for the price of a smart toy.

PART OF THE ROBOTICS REVOLUTION

Meet Marty the Robot V2

A fully-programmable, WiFi and Bluetooth enabled walking robot that's full of personality. Marty makes learning about programming, robotics and engineering fun, engaging and accessible.

A full, STEM classroom-in-a-box solution, Marty is designed for elementary and secondary educators and learners. Marty supports learning progression from screen-free coding, through to block-coding with *Scratch*, and all the way to real-world programming language *Python*. Marty can be used as early as preschool or kindergarten, and all the way up to post-secondary education. Robotical's educational materials provide a full spectrum of resources, such as video tutorials, lesson plans, student workbooks and so much more.

FEATURES:

✓ Fun & engaging – Marty helps teach:

- Coding
- Programming
- Electronics
- Mechanical Engineering
- Mathematics
- Literacy and Language
- Social and Emotional Learning

✓ No need to be a programming expert to use Marty in your classroom.

✓ In addition to core components, each pack of 5 robots also includes:

- 1 Battery Charging Dock with 5 slots
- 5 Spare batteries
- 1 Distance Sensor
- 10 Infrared (IR) Obstacle Sensors
- 5 Colour Sensors
- Printed Educators Guide
- Stickers to customise each robot
- Coloured Coding Cards for screen-free coding with the robots
- Convenient storage solution to store everything safely
- Support to help you get up and running with your Martys, straight out of the box!

The 'learn-to-code' educational robot kit with a big personality

Marty is a fully programmable robot, designed to give kids a fun and hands-on introduction to coding and robotics. Marty is also an expandable robot, perfect for makers and educators. Marty acts as a gateway into computer sciences and can grow with the child from early education to their senior phase.

Go For It Maths!

Early Years • Years 1-2 [Y2-3]

Maths is too hard! Maths is boring! I don't like maths! Sound familiar?

Most young kids start out loving their new found maths skills, but repetitive practise of the same types of sums and questions can be counter productive and will eventually turn off enthusiastic young mathematicians.

Go For It Maths! reinforces maths ideas by getting kids to use their knowledge and skills in lots of different ways. By playing number games, using reasoning and solving problems, students will see connections between different maths concepts and have the joy of discovering how maths and numbers work in the real world.

Designed for young readers to use on their own or with an adult, the book's games and activities can be enjoyed by a single child, students working in pairs, or a whole group of kids problem-solving together. The aim of the books is to support and supplement the learning children do during maths lessons. The books will also provide plenty of material for busy teachers to use when planning lessons.

WHAT OUR SCHOOLS SAY ABOUT US:

“I have dealt with Julie from Lioncrest twice now and she was fantastic. Quick, efficient and always ready to help. We even received some “Lionshare” books for free which was a lovely surprise. Our first lot of resources arrived promptly and well packed. We are looking forward to the arrival of our second batch!! Thank you.”

“I’m a librarian and just did a large order with Lioncrest. Wonderful service and great helpful staff. I’ll be back.” Cheryl W

“High quality books that cater to students of all reading abilities.” Sarah J

“When remote learning was announced, we needed to ensure that we had sufficient resources to enable our children to continue to access high quality take home readers. I reached out to Lioncrest and we hit the jackpot. We were not just able to top up our resources, but were ably assisted by an exceptionally supportive consultant in Janice Barletta. Our children have directly benefited from Lioncrest’s resources and support. As a school community we are exceptionally grateful and appreciative.” Grant L

“Thanks for Lioncrest’s efficiency in completing a difficult order to ensure our books were delivered for the start of the term. The helpful and well organised staff were able to connect with us in Western Australia and help us, through our WA Rep, to complete all details.” Alison F

“Lioncrest Education provided beyond amazing customer service and speedy delivery to our school! The books we purchased were fantastic and the follow up service was second to none – 5 stars all round!” Macalie V
